Agitators, Process Plants & Mechanical Seals – EKATO

For more than 85 years, EKATO has stood for the highest level of development and manufacturing expertise in the field of agitator technology. Irrespective of size and complexity, the customer benefits and reliability of agitators is always the first priority. From the wide range of highly efficient EKATO agitators, you can always find the optimum agitation system for any mixing task: Whether it

be for homogenization, suspending, dispersing, gassing, or the required heat supply and/or heat removal.

Mechanical seals and sealing systems specially developed for agitators ensure maximum operational reliability.

The agitators are typically manufactured according to DIN ISO 9001 but can be designed according to all international codes and standards.

EKATO's product range consists of small, efficient and standardized industrial agitators, entire agitator systems also with reactor vessels, which are individually developed for specific mixing requirements, as well as complete process plants.

EKATO therefore offers the right agitator system for every challenge.

 Agitators for a High System Safety which are Maintained Quickly

REACTOR AGITATORS EKATO-HWL-N

Motor Power	5 – 3500 kW
Shaft Diameter	40 – 500 mm
Operating Pressure	Vacuum – 200 bar

[Read More...](#)

 Industrial agitators EKATO FLUID type EM

INDUSTRIAL AGITATORS EKATO-EM

Motor Power	0,75 – 75 kW
Shaft Diameter	40 – 120 mm
Operating Pressure	Vacuum – 12 bar

[Read More](#)

 The cost-effective Agitator for mixing tasks with low vessel sealing requirements.

COMPACT AGITATORS EKATO-FD/KD/HWL-A

Motor Power	0,75 – 400 kW
Shaft Diameter	40 – 800 mm
Operating Pressure	Atmospheric – 4 bar

[Read More](#)

 Agitator for small volumes - EKATO FLUID type FGL

AGITATORS FOR SMALL VOLUMES EKATO-FGL

Motor Power	0,37 – 7,5 kW
Shaft Diameter	25 – 40 mm
Operating Pressure	Vacuum – 7 bar

[Read More](#)

 EKATO MD and SD agitators are designed for atmospheric vessels and are flexible in their field of application.

ALLROUNDER AGITATORS EKATO-MD/SD

Motor Power	0,37 – 7,5 kW
Shaft Diameter	25 – 40 mm
Operating Pressure	Atmospheric

[Read more](#)

 EKATO coaxial agitators: Universal agitators applicable for a wide range of viscosities

COXIAL AGITATORS EKATO-KOAX

Motor Power	5 – 250 kW
Shaft Diameter	40 – 220 mm
Operating Pressure	Vacuum – 40 bar

[Read More](#)

SIDE-ENTRY AGITATORS EKATO-ES

Motor Power	0,75 – 37 kW
Shaft Diameter	40 – 80 mm
Operating Pressure	Atmospheric – 7 bar

[Read More](#)**SIDE-ENTRY AGITATORS FOR STORAGE TANKS EKATO-ES-V**

Motor Power	1,1 – 15 kW
Shaft Diameter	40 – 60 mm
Operating Pressure	Atmospheric – 3 bar

[Read More](#)

SIDE-ENTRY AGITATORS FOR FGD EKATO-HWL

Motor Power	3 – 90 kW
Shaft Diameter	40 – 120 mm
Operating Pressure	Atmospheric – 7 bar

[Read More](#)

EKATO ESM: Magnetic-Safety-Agitator

MAGNETIC SAFETY AGITATORS EKATO-ESM

Motor Power	5 – 200 kW
Shaft Diameter	40 – 100 mm
Operating Pressure	Vacuum – 100 bar
